

⚡ Zero-Touch Assessment & Interview Assistant

Control all responses, screen solving, layouts, and stealth modes hands-free without triggering platform detection.

1. Assessment Shield & Stealth Operations (ऑनलाइन टेस्ट और सुरक्षा)

KEYBOARD SHORTCUT	FEATURE / ACTION	COMPLETE WORKING DETAILS (HINDI & ENGLISH)
Ctrl + Alt + A	Toggle Assessment Shield Ghost Mode vs Interactive Mode	Toggles between Ghost Mode (Pass-Through) and Interactive Mode . Test shuru karte waqt dabayein: Mouse seedhe test me pass hoga aur "Mouse Left Platform" kabhi nahi aayega. Settings karni ho toh wapis dabayein!
Alt + Z	Show / Hide Overlay Emergency Stealth Toggle	Instantly hides or unhides the HireMate window from your screen without stopping the interview session. Achanak kisi ke aane par screen se HireMate ko turant chupane ya wapis lane ke liye.
Alt + Q	Panic Emergency Quit Immediate Process Kill	Instantly terminates HireMate completely and frees all audio/memory resources. App ko emergency me turant band karne ke liye (Exit/Quit).

⚡ 2. AI Answer Navigation & Scrolling (आंसर देखना और स्कॉल करना)

KEYBOARD SHORTCUT	FEATURE / ACTION	COMPLETE WORKING DETAILS (HINDI & ENGLISH)
Ctrl + Shift + Right	Next Answer Card Forward in History	Moves forward to the next answered question card without touching the mouse. Agla question/answer dekhne ke liye (Mouse chhoone ki zaroorat nahi).
Ctrl + Shift + Left	Previous Answer Card Backward in History	Moves back to the previous question card in history. Pichla sawal/jawab dekhne ke liye.
Alt + Up	Scroll Answer Up Smooth Upward Scroll	Scrolls the currently displayed AI response text upwards. Lamba code ya lamba answer upar scroll karke padhne ke liye.
Alt + Down	Scroll Answer Down Smooth Downward Scroll	Scrolls the currently displayed response text downwards. Answer niche scroll karke agla point padhne ke liye.

KEYBOARD SHORTCUT	FEATURE / ACTION	COMPLETE WORKING DETAILS (HINDI & ENGLISH)
Ctrl + Alt + Shift + L	Toggle Lock Response Freeze Answer Screen	Locks the active response on screen so background speech does not overwrite what you are reading. Current answer ko screen par freeze/lock karne ke liye taaki naya sawal use hataye na.
Ctrl + Alt + R	Reset UI & Center Restore Default State	Resets window states, collapses opened panels, and centers the overlay. UI ko reset karke screen ke center me default position par lane ke liye.

👁️ 3. Smart Vision & Screen Solving (स्क्रीन सॉल्विंग मोड्स)

KEYBOARD SHORTCUT	FEATURE / ACTION	COMPLETE WORKING DETAILS (HINDI & ENGLISH)
Alt + S	Fullscreen Screen Solve Instant OCR & AI Analysis	Silently captures your screen in the background (hidden from screen share) and generates code/MCQ solution. Screen par dikh rahe coding question ya MCQ ka instant solution nikalne ke liye.
Alt + H	Hover Mode (Live OCR) Cursor-Tracking AI	Tracks your mouse cursor and automatically reads/solves the text directly beneath your pointer. Cursor jahan rakhenge, wahan ka sawal AI bina click kiye padhkar solve karega.
Alt + C	Circle Search Mode Freehand Area Selection	Activates freehand drawing tool: draw a circle around any diagram, problem, or code to analyze specifically. Screen par kisi specific diagram ya sawal ke ird-gird ghera banakar solve karwane ke liye.

🖱️ 4. Window Snapping & Docking Layouts (स्क्रीन पर जगह सेट करना)

KEYBOARD SHORTCUT	LAYOUT POSITION	WORKING DETAILS
Ctrl + Alt + L	Open Snap Layout Picker	Opens graphical menu to visually pick window placement on your monitor.
Ctrl + Alt + Left	Dock Left Half	Snaps HireMate overlay along the left half of your screen.
Ctrl + Alt + Right	Dock Right Half	Snaps HireMate overlay along the right half of your screen.
Ctrl + Alt + Up	Maximize Window	Expands HireMate for full visibility of long code answers and architectural diagrams.
Ctrl + Alt + Down	Restore Compact Bar	Restores window back to the compact, unobtrusive floating pill bar.
Ctrl + Alt + C	Center Overlay	Centers the floating overlay directly in the middle of your active monitor.

KEYBOARD SHORTCUT	LAYOUT POSITION	WORKING DETAILS
Ctrl + Alt + 1	Top-Left Corner	Docks the overlay neatly in the top-left corner of the desktop.
Ctrl + Alt + 2	Top-Right Corner	Docks the overlay neatly in the top-right corner of the desktop.
Ctrl + Alt + 3	Bottom-Left Corner	Docks the overlay neatly in the bottom-left corner of the desktop.
Ctrl + Alt + 4	Bottom-Right Corner	Docks the overlay neatly in the bottom-right corner of the desktop.

💡 Essential Pro-Tips for HackerRank, HackerEarth, leetcode & Mettl

- **Assessment Mode Best Practice:** Pehle HireMate ko screen par jahan rakhna ho rakh lein. Test shuru karne se theek pehle **Ctrl + Alt + A** dabayein (Shield ON). Isse mouse seedhe test editor me pass hoga aur "Mouse Left Platform" warning kabhi nahi aayegi.
- **Reading Answers Hands-Free:** Interviewer ke bolte hi AI answers khud generate karta hai. Answer scroll karne ke liye **Alt + Up/Down** use karein, aur question badalne ke liye **Ctrl + Shift + Left/Right** use karein.
- **Screen Share Protection:** HireMate me `WDA_EXCLUDEFROMCAPTURE` laga hai — Zoom, Google Meet, MS Teams, aur proctored video recording me HireMate 100% invisible (gayab) rehta hai (no black box).
